DECLARATION OF COMPLIANCE

REACH – European Regulation EC 1907/2006

List of 223 substances that are likely to be Substances of Very High Concern (SVHC) within the meaning of REACH (including candidate list last updated 17th January 2022).

With the information and inputs from our supplier base there are **NO** substances that are likely to be Substances of Very High Concern (SVHC) within the meaning of REACH (including Candidate List published in accordance with Article 59(10) of the REACH Regulation)

The following substances, preparations or articles have been included in the Pre-Registration phase.

The Fluidconnections Co UK Limited does not procure, manufacture and/or ship products that exceed the REACH initiative of 1 Metric Tonne threshold per year required for Pre-Registration.

We confirm that all product manufactured or supplied by The Fluidconnections Co UK Limited, will remain in compliance with the restriction of the marketing and use of the above-mentioned substances imposed by such directive. Any change to this status will be formally notified.

For these purposes, REACH compliant means that:

1. Our suppliers have confirmed the compliance status of the relevant product range to us.
2. We have implemented processes to obtain suppliers' statements and maintain relevant documents to support this.

To the best of our knowledge, none of our suppliers use any non-compliant substances to manufacture their products. Our statements in this letter regarding REACH compliance do not extend to, or apply to any product subjected to unintended contamination, misuse, neglect, accident, or improper installation.
